## ACTUAL BEGINNING OF "MAP-MAKING" DELAYED BY CROWD

Large Number Throng to See  
"Junker" Plane — Many  
Seek to Purchase "Ride."

Many people, interested in the junker all-metal plane which is making a survey of the city preparatory to making aerial maps, crowded around it at the landing field near Notre Dame yesterday, thus delaying unconsciously the beginning of the actual work. A number of prominent people who are interested in the project were taken up in an endeavor to show them the magnitude and value of such an enterprise. Among them were members of the city planning commission, the president of the city council, and several others.

It is a great engineering enterprise of the most difficult kind which is interested in "industrial and commercial maps." Much technical work is required in a venture of this type, and the map of the city is of great value, not only to the city engineers but in connection with the home building campaign now being carried on in South Bend. Inasmuch as it will be approximately six by eight feet in size when completed, and will show every building, street and hollow with the same exactness as though actually viewed by people, it may be used to advantage in selecting a site or planning improvements.

One trip was taken around the city, Mishawaka and the environs which was over an hour's duration. During this time about 77 photographs were taken for the purpose of defining the limits of the city and preparing in other ways for the actual work. A circle of approximately 30 miles was made about the locality. The peculiar ground haze which seems to be always hovering about the city may necessitate a much longer time than was anticipated when it comes to the mapping.

Many people yesterday attempted to purchase short rides in the plane. Because it is purely a business enterprise, this was not done, although the strict rules of the company were violated and several recorded the pleasure of a trip in the clouds as their guests.

One woman walked 10 miles because she believed they were here to take up passengers, and the officials thought she deserved a trip after that.

The enormous carrying capacity of the plane was demonstrated in an other flight when it went up carrying 1,000 pounds of gasoline and six heavy passengers.

Many people requested the aerial photographers to make pictures of their homes and factories.

The huge job which will leave this morning for Chicago with the officials of the C. R. Scott company, as they are expected there for an important business conference. All the trips are made via the air.

About the middle of next week they expect to return with all the necessary equipment for completing their work.

## FINDS MASTODON BONES IN NORTHERN CANADA

EDMONTON, Alta., July 16.—(By Mail.)—In a valley of the far north, in a section of British Columbia, close to the Yukon border, which is believed was never before visited by a white man, Frank Perry, mining engineer of Vancouver, has discovered the remains of mastodons that once roamed northern Canada. The location of the valley is not marked on maps, but it is north and west of the headwaters of the Findlay river. Indians will not travel through the valley, believing it to be haunted by the giant animals whose bones they have seen.

In addition to the bones there are footprints in the sandstone and shale of some other prehistoric monster; these are clearly defined marks showing that the maker of the tracks was a three-toed animal.

The bones, which are of great size, are not fossilized but are in a state of excellent preservation. Hip bones and sections of the spine were found by Mr. Perry, who believes that by excavation specimens of much historical value could be unearthed.

Mr. Perry, a recent visitor here, spent 14 years in the far northern territory in the quest of minerals, two pack dogs being his companions. Neither canoes nor pack horses can be used to gain access to the district, where these remains were found, so far the only manner of traveling has been to live on the same, using dogs to pack the camp equipment on their backs. It requires a year to make the journey in this way, but an airplane could cover the distance in a few days.

BOY DROWNED.  
LAFAYETTE, July 27.—Carl Huret, 14, of Battle Ground, was drowned in the Wabash river near here, late Wednesday afternoon.

There is an ancient Chinese superstition that if you eat enough peaches you will live forever. Many years ago, it is said, a Chinese girl, believing in this superstition, gave her sailor sweetheart a peach seed to carry for luck on a trip to America. While in this country he lost the seed and from it grew the first peach tree in the United States.

## Who Wins?

GRAND JUNCTION, Colo., July 27.—(By I. N. S.)—Whitely Hutton, local boxer, landed a terrific left to the stomach of Jack Downs of Montrose, just as Downs shot a smashing right to Hutton's jaw in a scheduled six round bout here last night, and both men hit the canvas simultaneously. They were both counted out. Hutton not retaining consciousness for five minutes after the count had been completed.

## Two Celebrities Of Literary Fame Visit South Bend

Sinclair Lewis Tells of Race  
to Cleveland with George  
Horace Lorimer.

Two of America's most prominent literary celebrities were South Bend visitors yesterday.

Sinclair Lewis, author of "Main Street," "Free Air," and other notable publications, with Mrs. Lewis, was a guest at the Oliver hotel, arriving late Wednesday night and leaving early yesterday morning. The famous writer is en route east for a vacation in the Adirondacks.

The other celebrated visitor was George Horace Lorimer, editor of the Saturday Evening Post, whose stay was much less prolonged than that of Mr. Lewis. Mr. Lorimer is also motoring east and was at the Oliver hotel for a short stay yesterday afternoon, having about 3 o'clock for Cleveland.

Mr. Lewis said the most interesting development of his trip to date was a proposed race to Cleveland between himself and Mr. Lorimer. The two met in Chicago Wednesday, Mr. Lorimer remaining over until morning. He declared, however, that he would make Cleveland before Mr. Lewis, despite the handicap of 100 miles.

"And you know I believe he will," said the novelist. "I am driving my own car while he has a chauffeur. Somewhere along the route I expect to hear a roar, look up and see him skimming by me in a big Pierce Arrow."

Mr. Lewis discussed his next book which is to appear Sept. 14. "Babbitt," he declared, was a study of characterization rather than environment, as was "Main Street."

## CATHERINE TINGLEY OPENS CAMPAIGN TO MAKE EUROPE HAPPY

California Theosophist Leads  
Staff of Adherents on  
Trip to Germany.

BERLIN, July 27.—Catherine Tingley, 70-year-old theosophist from Point Loma, Cal., has arrived here, with a staff of her students, "to give back to Europe the joy of life."

"We will conduct a campaign against the misery, sickness and seemingly hopeless pessimism of the European nations," declared Madam Tingley. "It is meant to give them back their joy of life and teach them, that nothing but the firm belief in the godly origin of man will at last make them give up the idea of material power and imperialism."

"It seems to me that the European nations can't be helped unless they completely forget about hatred and wars. But obviously it is hard for anyone to have their former idols were vain altogether. It is only through the children that things can be improved and especially by new methods of education. I brought up hundreds of them of all nationalities in Point Loma, and none of them knew anything about nationalism, chauvinism or enmity between the nations. Don't you think that that would also be possible in Europe?"

"I understand that there is still a good deal of animosity against Americans in this country on account of Wilson's failure at Versailles. As far as I am concerned, I was received here with open arms and the utmost kindness, but certainly I can not blame the Germans for not liking our former president after the experience he had with them."

"It is absolutely imperative that the Versailles treaty should be revised. For years and years I tried to convince the American people by public lectures in all parts of the states that they, to a considerable extent, are also responsible for this treaty and must do something to abolish it. I intend to do the same thing here."

"America and Germany are two countries which have a good deal to give to and to learn from each other. German literature and, above all, German music, was very much liked over here before the war."

"I am sure that America will let the German people have something of her abundance of raw materials and economic sources of all kinds and also that she will some time feel obliged to give back something to Germany which she needs most—the joy of life, which is the one thing man can never miss be he wherever he is."

"It strikes me that people in America are young and optimistic, whereas people in this country are old and pessimistic. It's my heart's desire to change this and to show them the real way of happiness lies in the blessings of theosophy."

## Participants In "Million Dollar" Fur Show to Appear In South Bend

It was announced yesterday by S. H. Ward, president of Ward's Inc., and who recently took over the store of Ward & Lewis, 225 S. Michigan st., that he had secured a part of the "Million Dollar" fur show now at the Macleod Gardens, Chicago, for his local store.

Mr. Ward and Francis J. Vogt were the guests of C. J. Gordon, president of the Furriers association, at the opening of the show in Chicago. Through the suggestion and courtesy of Mr. Gordon, part of this show was secured for South Bend for Saturday, July 29.

Miss Cordelia Winslow, who won first prize in a beauty contest held by one of the Chicago newspapers and who afterwards supported Norma Talmadge in several of her latest pictures, will have charge of the show at the local Ward store. Miss Winslow, according to Mr. Ward, brings with her what is probably the most elaborate collection of furs and fur coats that has ever been shown in South Bend.

The show starts Saturday afternoon and will continue throughout the evening. Mr. Ward stated that he has made preparations to accommodate a large number of people and extends a cordial invitation to the women of South Bend.

PLAN NEW BUILDING.  
Plans are in the hands of contractors for a store and flat building to be erected for W. B. Pershing at the corner of Sample st. and Carroll st.

Although the ocean is the common property of every country, and as such free to all, yet, according to generally recognized international law, every country exercises jurisdiction over the sea within three miles of its shores.

## BRITISH GOLFERS LAUD NEWS-TIMES FOR "ENTERPRISE"

Praise Speed and Accuracy  
Shown in "Covering" International Match.

"That's the first display of real newspaper enterprise I have seen in America. An edition reaching me, carrying detailed reports of 23 holes of a golf match while I was on the 16th tee."

It was George Duncan, noted British golfer who spoke after briefly scanning the first page of The News-Times pink sheet while awaiting his turn to shoot. The edition had been rushed to the gallery on the links and industrious newsmen had given the several hundred golf fans on the course a real taste of metropolitan newspaper service.

The afternoon editions, the first carrying a complete report of the morning round and photographs and the second, the pink, carrying details of the early afternoon play, gave golf fans a real display of News-Times service.

Praise Course.  
Abe Mitchell, other member of the British pair who met defeat at the hands of "Chick" Evans and Bert Meyerling at the Chain-o'-Lakes course Wednesday in the international golf match, also expressed admiration of The News-Times speed and service.

Both Mitchell and Duncan spoke highly of the Chain-o'-Lakes course and of the democratic spirit of friendliness that exists in the local club.

"America is now the pace-setter in golf," Duncan said, "and in a few years will be a nation of golfers."

"Municipal courses are a public necessity. They give pleasure to those who cannot afford to join golf clubs and tend to settle the feelings of unrest that exist among the laboring classes. It gives every man and woman the chance to indulge in the sport that they will enjoy most. Municipal links in every city—that should be the goal of America, and it will give her citizens a new lease on life."

abolish it. I intend to do the same thing here."

"America and Germany are two countries which have a good deal to give to and to learn from each other. German literature and, above all, German music, was very much liked over here before the war."

"I am sure that America will let the German people have something of her abundance of raw materials and economic sources of all kinds and also that she will some time feel obliged to give back something to Germany which she needs most—the joy of life, which is the one thing man can never miss be he wherever he is."

"It strikes me that people in America are young and optimistic, whereas people in this country are old and pessimistic. It's my heart's desire to change this and to show them the real way of happiness lies in the blessings of theosophy."

## LEPER PARK BOYS WIN IN FIRST OF PLAYGROUND MEETS

Score 40 Out of Possible 100  
Points in Inter-Playground  
Events Thursday.

By taking all contests for boys, the Leper Park group won the first inter-playground meet of the year. Bigger crowds than ever before gathered on the playground grounds for the event, which was held on Thursday.

The Leper Park boys scored 40 out of a possible 100. J. D. Oliver played winning 27, Kaley 25 Howard 20 and Studebaker 3.

Through the use of the "Magna-vox" loaned to the Municipal Recreation Committee through the courtesy of Elbel and Son, it was possible to have the folk dancing and the solo, aesthetic dancing to the music of a Victrola. Because of the excellence of the dancing, it was difficult to select any that was superior to the rest. However, consensus of opinion was that "The Awakening of the Roses," as danced by the Kaley group, was the finest number on the program. The solo dancing by the girls from Howard Park was also especially well done.

The largest number of prizes for contests for girls went to the Kaley group. They carried off the honors in ball throwing for distance, basket ball throwing, and the clothesline race, besides going into a tie with Franklin in the peanut race. J. D. Oliver came second as a prizewinner, with Franklin third.

In the boy's events, Toney of Kaley won the honors for midge stick, and the boys of Howard Park captured first place for the juniors, and Sheppard of Howard took the blue ribbon for the intermediates. For accuracy in ball throwing, Pretzel of Leper, Padowitz of Oliver, and Henthorn of Leper took prizes for the midsize, juniors, and intermediates, respectively.

The 60 yard dash honors went to Welsh a Junior from Leper, and Findley, an intermediate from the J. D. Oliver playground. The blue ribbon for the standing broad jump was won by Bishop for the midsize of Howard, Horvath for the juniors of Kaley, and Geyer for the intermediates of Leper.

Through the kindness of the Michigan and Indiana Electric Co. and Messrs. Heller, Riss and M. R. Weber, trucks were sent to those playgrounds farthest out, to bring the youngsters in for the meet.

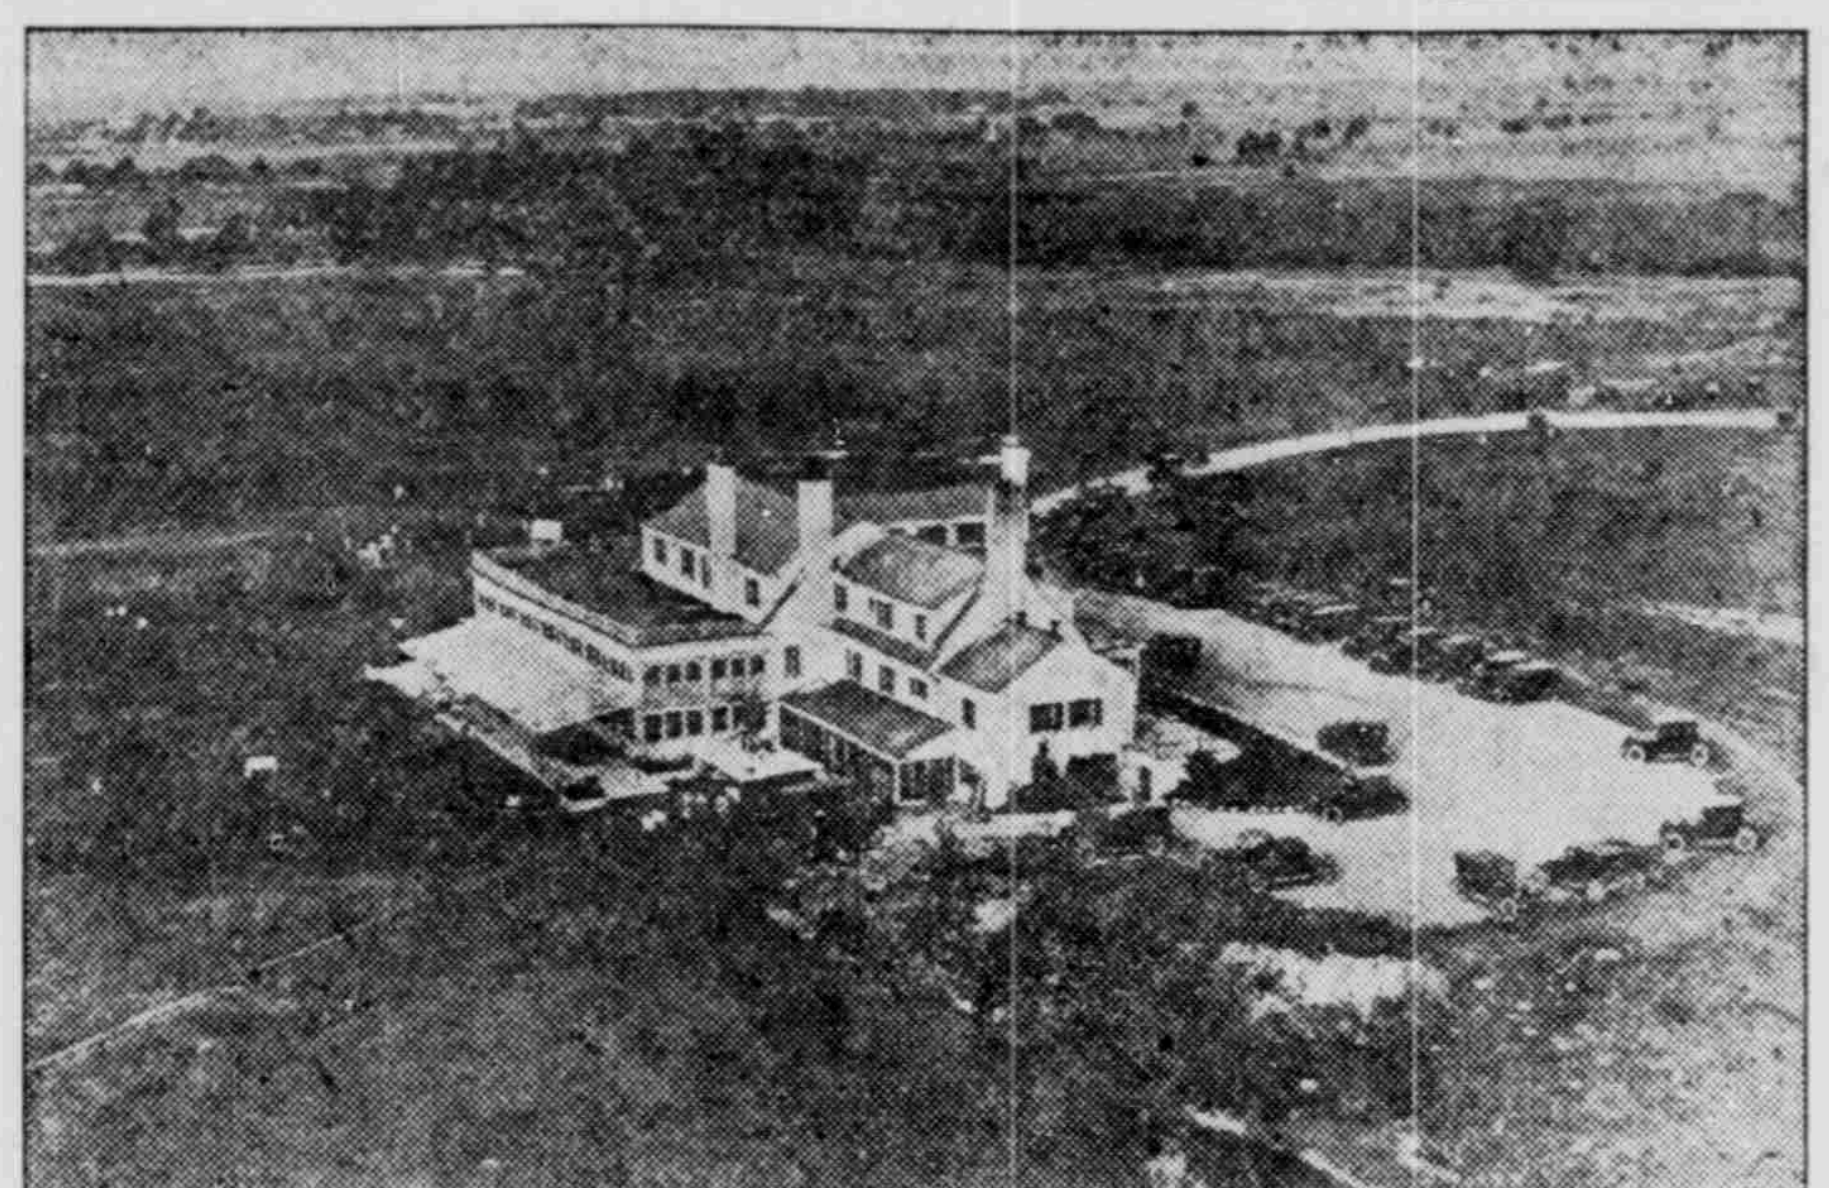

Attention of the playgrounds will now be centered on the swimming meet to be held Aug. 17.

## JACK LOOMIS ROUNDS INTO SHAPE FOR BOUT

NILES, Mich., July 27.—(Special.)—Jack Loomis, of Jackson, Mich., well-known hantam boxer, is rounding into great shape for a round of his career, which will take place at the Riviera theater in this city on August 1, when he meets Jack Kennedy of Gary, Ind. in a 10-round, three-minute boxing exhibition.

For the past week large crowds have been present every evening to watch Loomis "put on" with all comers at the Miltenberger gymnasium on N. Second st. Thursday training quarters here were closed to the public, and private training began with sparring partners from Jackson and South Bend. On Thursday evening Loomis gave a public exhibition before fight fans gathered at the Mishawaka Central fire station.

## Aerial Photo of Chain-o'-Lakes Country Club

This photograph was taken from the skies Wednesday afternoon immediately following the international golf match, in which "Chick" Evans and Bert Meyerling defeated George Duncan and Abe Mitchell. The photo was taken by Irving W. Akers from a plane piloted by Eddie Stinson, both associated with C. R. Scott, Inc.

## Tenor and Pianist Are Featured Artists On Radio Program At 'Y'

F. S. Kooz, tenor, accompanied by Mrs. James Kooz, tenor, last night entertained radio fans who "listened in" on the program broadcast from radio station WBAQ at the Y. M. C. A. Mr. Kooz is musical director and Mrs. Kooz organist at the First Presbyterian church.

The singer gave several classical selections, "O Sole Mio" and "When Irish Eyes Are Smiling," being the favorites. In response to requests for encore, he sang "The Joy of Spring" and "Joy." The latest news furnished by the News-Times completed the program, which was sponsored by the Belger Furniture Co., the Ault Camera Shop and C. L. Guthrie, broker.

The program to be broadcasted tonight will be given by Mrs. Wilda Shonts, violinist, Miss Nellie Williams, cellist, and Mrs. Zella Williams, pianist. This program will be under the auspices of the Ault Camera Shop, the Gately Clothing store and the Columbia Battery Co.

## FORMER OFFICER FOUND INNOCENT

Schriker's Arrest of Kolacz  
Carries Little Weight in  
City Court.

John Kolacz, 2224 Kenwood st., a former member of the South Bend police force, was found not guilty in the city court Thursday morning of the charge of driving an automobile while under the influence of liquor.

Kolacz was arrested by Officer Herman Schriker, Kolacz's own testimony, which the state did not attempt to contradict, won the former policeman a discharge. He claimed that he had unvoluntarily struck another car in an alley, and that he had come to the police station with Officer Schriker, and that the desk sergeant, after hearing the facts of the case had told him that the facts were not sufficient to warrant holding him for trial. Kolacz claimed that he then returned to his machine, Schriker accompanying him, and that he said to the officer:

"Schriker, you know you shouldn't have brought me in for this."

Thereupon, Kolacz claimed, Schriker declared he would have him booked anyway, now, and returned him to the station and had him booked on the charge of operating an automobile while drunk.

## LEGIONNAIRES PLAN FOR COMING PICNIC

South Bend Post No. 50 of the American Legion, held its regular meeting last night at the Chamber of Commerce. Two committees were appointed and many important matters were discussed at length.

Included among the tentatively made for a picnic, the time and place of which will be decided by a committee headed by Col. C. S. Bullock and including Walter Strang and Luther Lane. It is planned to hold the big event some time after Aug. 15. A report will be rendered at the next meeting concerning the decisions of the committee.

A second committee was appointed to report on the plans for a permanent building, and the means of raising the funds for its completion. Dr. A. L. Knapp is chairman and Walter Rice and Edward Beck the other members.

## EVIDENCE "MIXED" IN TRIBUNAL BUT BOTH WERE THERE

Similarity of Names Causes  
Confusion As Motor Vehicle  
Case Is Called.

Similarity in names—the similarity consisting in that both names ended in "ski"—led to the trial in city court Thursday morning of one man on charges filed against another.

Julian Bilinski was called to answer charges of operating an auto with improper license, and with having no tail light. A defendant, presumed to have been Bilinski, pleaded not guilty, and the state proceeded to try the case. Officer Dunning took the stand and testified that he had arrested Bilinski for having no tail light, having no license certificate or container, and having a license number ending in a Ford car that was listed as belonging to an Overland car. The defendant was unrepresented by counsel, and Special Judge Kovacs asked the defendant if he had anything to say.

The defendant replied that he had nothing to say except that Officer Dunning had never arrested him, and that he drove neither an Overland nor a Ford car, but a Chevrolet. Officer Dunning was then asked if he recognized the defendant as the man whom he arrested, and he replied that he had never seen the man before.

At that juncture, Bilinski, the real defendant, who was apparently only an interested spectator at the court proceedings came forward, and stated that he was the man whom Dunning had arrested. He also produced his license card and container, and said that he found them back of the seat in his car. He was found not guilty on the charges of not having a license and container, but was fined \$5 and costs on the charge of not having a tail light. The other defendant, who was at first tried for Bilinski's defense, was Peter Gadamski, charged also with having improper license, and his case was set for July 31.

Other violators of auto licenses whose cases were disposed of were Max Gross, speeding, \$1 and costs; Lloyd Wisler, open muffler, \$10 and costs; Mike Jurbin, no tail light, \$5 and costs; Ellis Larimer, no tail light, \$5 and costs; William Beadle, no tail light, \$1 and costs, suspended.

## Consignment of 60 Cars Is Parked Downtown Here

Extra precautions were taken last night by the local police to guard the "train" of 60 new Chevrolet automobiles which arrived in town yesterday. The consignment, one of the largest ever received in this city, consisted of the various models of the latest manufacture.

The cars were parked along Lafayette st., last night and this morning will be taken to the sales rooms of the Belste Auto Sales company, local agents.

Included among the "Caravan" are 38 "490" model touring cars; six "430" sedans; 2 "490" roadsters; 4 "490" four passenger coupes; nine "C. B. 50" touring cars and one "490" delivery truck.

## Moore Order Plans for "Children's Day" Saturday

The Loyal Order of Moose, No. 535, held their regular meeting last night and initiated a class of six. Plans for the children's ice cream party to be held Saturday afternoon, were completed. All the children of the city are invited. Woltman's orchestra will furnish music and a "big" time is guaranteed to all the youngsters who attend.

J. J. Morgan, chairman, L. S. Stinson, T. G. Getzinger, and William Smith were appointed as a committee to handle the event.

## QUARTET IS HELD ON ROBBERY WARRANTS

Affidavits charging assault and battery with intent to commit robbery have been filed against Arthur Clements, Albert Clements, George Gemberling and Charles Betz, who are alleged to have held up a car driven by John F. Gibson near North Liberty Sunday evening.

The quartet was arrested on affidavits charging vehicle taking, but they are now held for the holdup attempt. Betz has been released on a bond of \$100, and the two Clements and Gemberling are held awaiting finding bondsmen to furnish bonds of \$1,000.

## Turns On Faucet, Snake Falls Into Sink In Kitchen

Mrs. James Zimmerman Dis-  
plays "Find" to City Water  
Works Authorities.

A six-inch water snake, alive, slimy and squirming, flopped into the sink at the home of Mrs. James Zimmerman, 28 E. Colfax av., Thursday noon when she turned on the faucet to get a drink of water.

After a trip of unknown miles through the city water mains the snake, perfectly harmless, but none the less terrifying, found an outlet in Mrs. Zimmerman's home, and city officials are now trying to determine how it was possible that such a condition could develop. The health department investigated and found that the snake was not a snake of the imagination, but a real, wiggling, squirming, very much alive water snake.

The board of water works was also notified by Mrs. Zimmerman, and an investigation is being conducted to determine whether the snake entered the mains through defects in the floor or through some other means, more harmful or more injurious than a six-inch water snake can get through the mains. Mrs. Zimmerman now has the snake in a milk bottle, filled with water, in order that her husband and children should not see it turn it over to the board of health or the board of water works, to do with it as they wish.

## POLICE REDOUBLE EFFORTS TO CLEAN UP CITY'S RESORTS

Also Begin War to Rid City  
of Disreputable Women  
Street Loiterers.

Redoubling of the activities of the police department in the campaign to rid South Bend of houses of ill-fame and disreputable women was announced by Chief of Police Lane, Thursday. The campaign, which in the past has been waged chiefly against houses known to have been in operation as bawdy houses, will be continued, the chief said, and in addition the police department has been ordered to rid the city of undesirable women.

Two raids Wednesday night on alleged resorts and the arrest of one woman in Howard park on a charge of loitering, Chief Lane said, could be taken as evidence that the department intends to rid the city of disreputable women. Two conditions, the chief declared, have made necessary this campaign. The first condition is the fact that police raiding activities have closed most of the disreputable houses and inmates have been driven to the streets. The second condition, which is a direct result of the first, is the needless congestion of traffic in the "loop" district caused by "fliver" drivers driving up and down the streets looking for these characters.

Chief Lane said that members of the police department and of the detective force know that the professionals are, and that they will pick them upon sight. Power to do so is granted in Ordinance 1629 passed March 30, 1913 which makes it unlawful for women of disreputable character to loiter on the streets of the city. Penalty for conviction is \$100 and costs and 30 days in jail. This ordinance, Chief Lane declared, has teeth and it will be most rigidly enforced. He said that the characters against whom the department is making the drive are known to the police, the character evidence which will be introduced against those who are arrested, will make it necessary for them to prove that they are on the streets for a legitimate purpose, rather than making the police prove that they are on the street in violation of the city ordinance.

"The department means business, and these women must go," was the chief's final emphatic shot.

## Club Is Scene of Goshen's First Federal Boose Raid

Harry Mathers, federal prohibition enforcement agent for this district, and Deputy Stuart Galt yesterday afternoon visited the club rooms of the Eagles lodge at Goshen, seizing three quarts of "moonshine," a bevy of empty bottles and also several glasses which contained a strong odor of whiskey.

It was the first raid made at Goshen by federal officers.

Calvin Arnold, custodian of the club rooms, was arrested on charge of illegal possession of intoxicating liquor. He gave \$1,000 bond.

His appearance before Mayor Rimpler Saturday morning. An effort will probably be made to rescind the charter of the lodge.

Two other Goshen "resorts" were visited by the officers but no evidence was forthcoming.

## PLAY SECOND ROUND FOR RUGBY GOLF CUP

In the second round for the senior championship (Edwidge Trophy) Beck defeated Kennedy 4 and 1; Hager defeated McGill 2 and 1; A. N. Shilder defeated Pollock 2 and 1; Erskine defeated Terry 3 and 2. In the semi-finals Erskine vs. Hager, Shilder vs. Beck.

In the first round for the Rugby trophy Miss Laura Harris defeated Mrs. M. P. Kavanagh 7 up and 6 to play. Miss Harris played an exceptionally strong game and if she continues in her present form she will win the trophy.

Beck got an early lead on Mrs. F. E. Whitehall which she retained to the finish winning 6 and 4; Mrs. D. K. Splitter sprung a big surprise by eliminating Mrs. H. L. Cooper 3 and 1 in a closely played match. The real fight of the tourney so far was staged between Mrs. W. J. East and Mrs. H. E. Schadt the decision going to Mrs. East by a single hole.

In the semi-finals Miss Harris vs. Mrs. H. F. Roelster; Mrs. D. K. Splitter vs. Mrs. East.

## CROTHERS TO FACE PROSECUTION FOR ACTION IN CRASH

Donahue to Press Charge of  
Leaving Scene Where Man  
Was Hurt Without Report.

Charles E. Crothers, 313 Cottage Grove av., charged with leaving the scene of an accident without reporting to the police authorities, gained another continuance in city court Thursday morning. His trial may be called on August 1.

Crothers, who contends that he is assistant advertising manager of the South Bend Tribune, is charged with striking, with his automobile, Schuyler Trittip, 234 E. Calvert st., on May 26th, last, and to have fled the scene without stopping to ascertain the extent of his victim's injuries.

The accident occurred at Lafayette Blvd. and Division st., according to the police. Trittip, his machine "dead" because of battery trouble, was pushing his car when struck by the machine alleged to have been driven by Crothers, and pinned between the two cars.

Left Suffering Man.  
Crothers is said to have left the injured man lying in the street with an arm fractured in three places and a leg also broken, driving swiftly from the scene. Crothers' license number was obtained, however.

After an investigation of about three weeks on account of the fact that the car which Crothers was driving had changed ownership several times without the number being changed, Crothers was finally determined upon as the party who had struck Trittip, and an affidavit for his arrest was issued.

Dep. Pros. George J. Donahue, of the city court, has taken a determined stand in the prosecution of automobile accident cases in which complaints are filed by the injured party. Condemning the procedure which has been common in the court—to allow a case to drag along for weeks while a civil settlement between the parties is being made—and then have to drop the case for failure of the prosecuting witnesses to appear, the prosecutor has laid down the policy that he will refuse to be a party to any further dismissals of such cases. Rather, he will seek the court to issue bench warrants to compel the witnesses to appear in court, and have them cited for contempt if they refuse to testify.

Not "Collecting Agency."  
Pros. Donahue said that within the past few months the city court docket had been burdened with a large number of these cases, and that practically all of them have to be dropped on account of failure of prosecuting witnesses to press the charges. The prosecutor said that the city court has been used as a "collecting agency" long enough, and that it is about time that a halt be put to it. In a great majority of such cases, the prosecutor said, there has been a violation of the law, and affidavits against the offenders are perfectly justifiable, but that the end of the law has not been satisfied just because the offenders have paid a fine, and a automobile accident makes a satisfactory money settlement with the injured party. The civil side of the case, Mr. Donahue said, is entirely apart from the criminal side, and that the city court is not being used as a weapon to compel civil settlements.

"The city court is NOT a collecting agency. It is a correction agency," the prosecutor concluded.

## Cuppy, Old Star of Diamond, Now Victim of Death

Famed Hurler of Boston Club  
Dies After Extended Ill-  
ness of Complications.

ELKHART, Ind., July 27.—(Special.)—Death cast its gloomy shadow early Thursday at the home of George Cuppy, a former star of the world's one of the greatest baseball pitchers of all time. It broke the web that had made Cuppy, George Cuppy and Lew Criger the greatest battery mates in major league baseball and recalls the great days of their play at Boston. Cuppy, like Young, was noted for his great speed and control in the game of 20 years ago and Criger, who lives on a Michigan farm, north of Elkhart, was the only catcher in the major leagues who could hold them.

Cuppy quit the diamond at Cleveland in 1902. He was 32 then, and had spent his better years on the mound. He couldn't bear to think of sliding back as an old blood in the circuit being replaced with new and younger strength. He came to Elkhart, bought a billiard hall and has since made this city his home, although he spent much of his time on his farm at the edge of town.

George Cuppy, a former star of the world's one of the greatest baseball pitchers of all time, died after a long illness of complications.

## Local Chapter of "Frat" Installed at South Bend

A local chapter was installed last night by Delta Sigma Upsilon, national fraternity, at a meeting in the Gold room of the Oliver, which was attended by over 40 members of Goshen, Nappanee, and other chapters. About 20 new members from South Bend were initiated under the banner of the Grand Delta and Grand Upsilon, who came from Goshen and Elkhart for that purpose.

The local unit was formed largely through the efforts of Earl Blough, Joe Miller, and other members of nearby chapters.
